

Disclaimer - desktop helpers

The International Primary Care Respiratory Group produces a range of "how to" practical guidance for clinicians working in community settings. These are now called [Desktop Helpers](#) (previously Opinion Sheets).

Where possible, these are published using [Creative Commons licences](#) under the **Attribution-NonCommercial-ShareAlike CC BY-NC-SA licence**.

This licence lets others remix, tweak, and build upon our work non-commercially, as long as they credit IPCRG and license their new creations under the identical terms. This enables member countries to adapt and translate for use in their country.

Further information on the fine print can be found by reading the [Legal Code](#). We would appreciate it if you would ask your colleagues to visit our site to obtain documents, rather than you sending them copies. By doing this they will be better able to understand and accept the CCL.

The IPCRG Education sub-committee coordinates the views of primary care colleagues working in a range of settings with a special interest in the topic of the desktop helper. The views expressed in these desktop helpers are not necessarily those of the International Primary Care Respiratory Group.

If the Desktop Helper has been sponsored, the funder will be acknowledged on the Desktop Helper, together with any terms, but it is our policy that sponsors do not contribute to or influence the content. All authors will declare any interest and this will be included in the Desktop Helper.
