

PrimAir

IPCRG Full Member Submission

Current Membership and plan

- Actually : 8 general practionners, all academics
- Plan :
 - Recruiting through *Asthma Right Care* and congress
 - Extend to other general practionners, especially non-academic
 - Extend to other professions : physiotherapists, nurses, Advanced Practice Nurses, therapeutic education nurses, pharmacist
 - Extend to other specialities : pulmologists (but in France, mostly in tertiary care), pediatricians

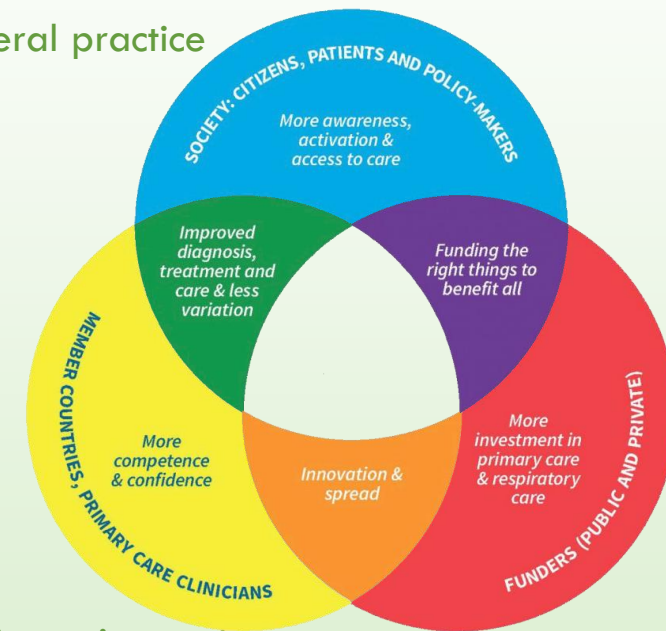

Educational Activities and Plans

➤ Actually :

- Full member of Asthma Right Care for France
- Spirometry training in primary care at the national congress of general practice and universities
- Member of the scientific committee of the E-respir congress
- Translation work for IPCRG

➤ Future

- Production of a prescription support website for asthma and COPD
- Depending on the recruitment of other professionals : participation in nursing and pneumological congresses

Current Research Activities and Plans

➤ Actually

- Systematic review on the diagnosis of asthma in children < 6 years old
- Systematic review and meta-analysis on the treatment of asthma in adult

➤ Expected

- The CAPAST study : Effectiveness of the Evaluation and Communication of "Pulmonary Age" as Help for Smoking Cessation. NCT04276116. Funded by a national public grant. Study start date: November 2021.
- The GLORI COPD study : Screening of COPD Patients at Risk of Complications in General Practice. NCT04027296. Funded by a national public grant. Study start date: September 2021.

Improved
diagnosis,
treatment and
care & less
variation

More
investment in
primary care
& respiratory
care

FUNDERS (PUBLIC AND PRIVATE)

PrimAir

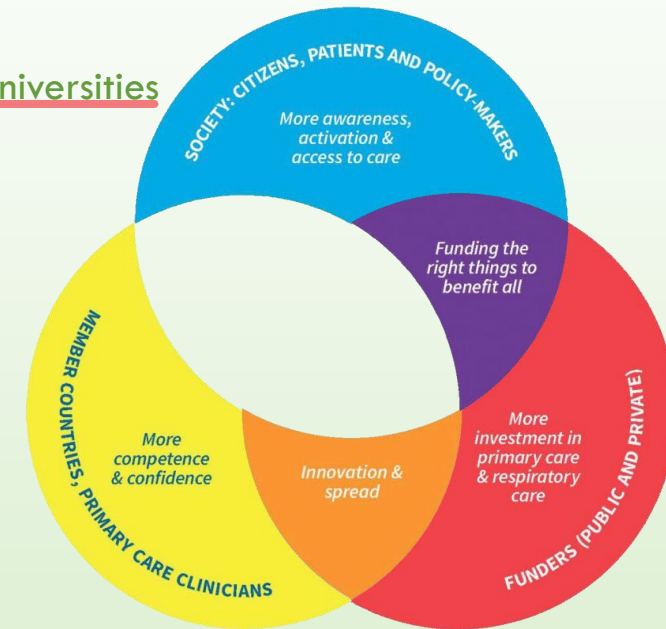

Presence and Influence Growth

➤ Actually

- Several members of Prim'Air are members of the National College of Teaching General Practitioners
- Several members are heads of department of general practice in universities
- Participation in the development of recommendations

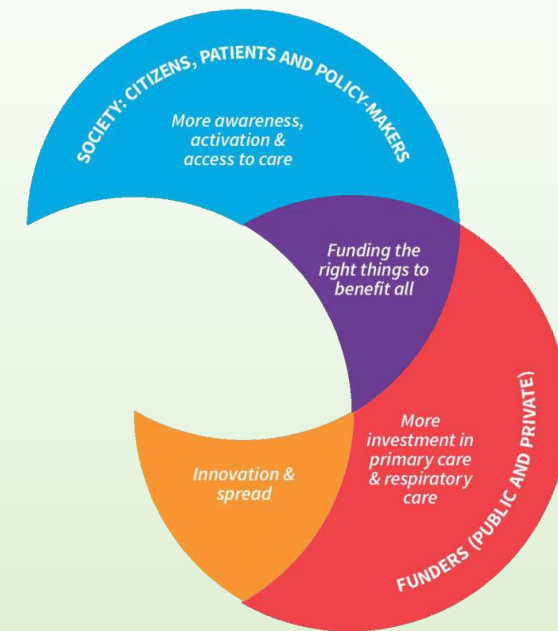

➤ Expected

- Member of the College of General Practice
 - As a major actor in respiratory care

Work with patients and public

- There is no specific plan for working with public
- But fits in with Asthma Right Care and the development of the recommendations

Conclusion

- ▶ Prim'Air is already fully engaged in primary care respiratory health
- ▶ And is already working on many of the objectives supported by IPCRG
- ▶ Future projections, notably via the *Asthma Right Care* initiative, aim to develop these further
