

AGM

President's Report for 2022

Online

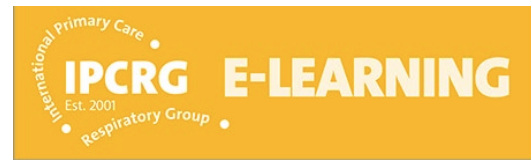

Ee Ming Khoo, Malaysia

We continue to deliver our strategy

We created value for our 37 country members and individual clinicians

- World Conference, Málaga: 1st hybrid meeting; 750 delegates, 160 abstracts; 30 countries
- Expanded Sentinel Network
- 21 answers in iQ&A in response to COVID-19 questions
- E-learning modules: first approved by EACCME

We created value for our 37 country members and individual clinicians

- Remote respiratory consultations policy paper published
- Asthma Right Care Teach the Teacher building capacity to support primary care
 - 8 Latin American countries
 - Spanish pharmacists

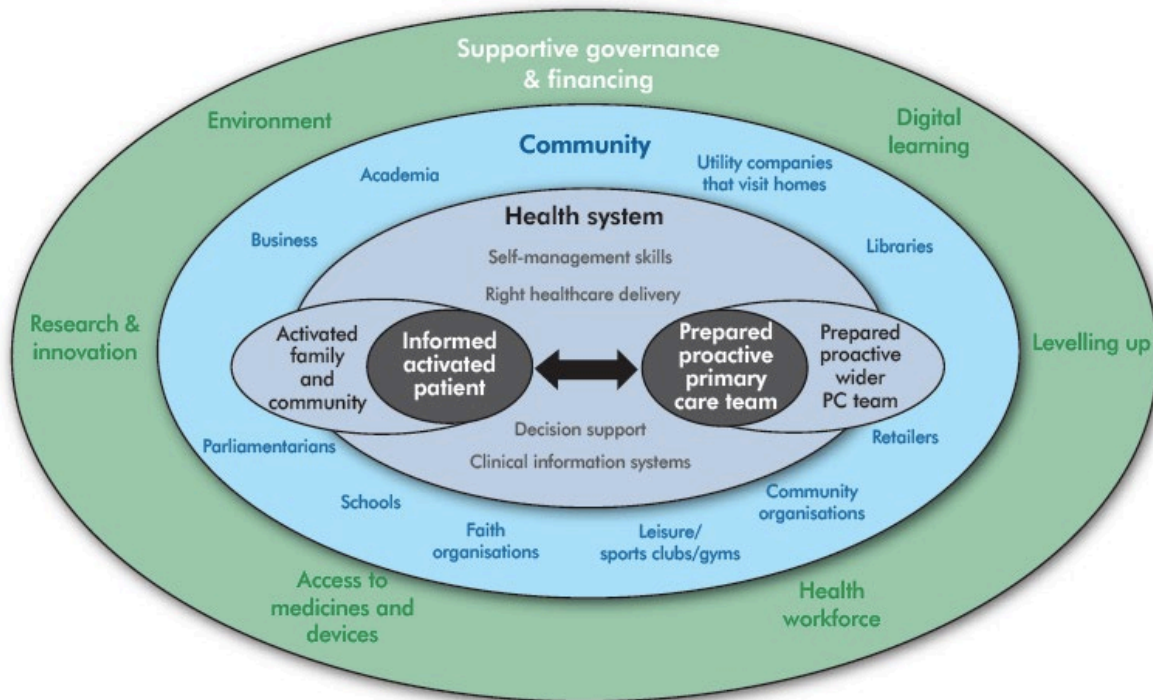

We created value for our 37 country members and individual clinicians

- Asthma Right Care: now in 17 countries & growing
- COPD Right Care:
 - COPD magazine 1st edition
 - COPD and mental health desktop helper
 - Palliative approach desktop helper
 - Established Spirometry Simplified working group
- Handbook with International Federation of Pharmaceutical Societies (FIP)

Remote consultations policy paper, reaffirms importance of primary care decision-making with patient

We created value for society

- How We Breathe film, now in multiple languages and short sections
- Chronic respiratory disease MOOC with University of Edinburgh for RESPIRE – further runs
- Remote respiratory consultations desktop helper, checklists
- Asthma Right Care, COPD Right Care social movements engaging the public
- COPD Magazine – for people living with COPD

We created value for funders

- IPCRG Research grants to demonstrate value of primary care respiratory research
- Completed Breathe Well programme, introducing 4 member countries to University of Birmingham
- Completed RESPIRE and initiated RESPIRE 2 – now in 7 countries, 3 programmes and 4 platforms

We created value for funders

- FRESHAIR4Life was approved with Leiden University Medical Center – funded by Horizon Europe and UKRI
- Continued to coordinate Global Health Respiratory Network including journal club
- Ran workshop for multi-funded Asthma Diagnosis Jigsaw (now being typeset)

Deliver objectives efficiently, with effective cost control, raising income to invest in projects and infrastructure for which fundraising is more challenging

- Two strategy teams: Asthma Right Care and COPD Right Care
- First accreditation with EACCME, with Education committee support
- Research Leadership Team led Scientific Programmes for Málaga and Munich
- Relationship building with Wonca, ICRN, HIFA (health information for all) and FIP
- Increased use of technology: translation, dubbing
- Implementation of our triple bottom line
- Asthma Right Care in low income countries eg Bangladesh; support for pharmacists
